THE LONDON JEWELLER

## Ring Sizing Guide

1. Before printing the sizing guide, be sure that your printer options are set to print to actual size.
  2. Do not click scale to fit. Fit to 100%.
  3. Print on a full sheet of A4 paper.
4. To verify that the sizing guide has printed correctly, position a credit card on the line below

### Method 1. David Morris Ruler Ring Sizer

- Cut out the ruler below. Make a slit in the ruler as indicated.
- Insert the pointed end of the ruler into the slit to form a loop, making sure the numbers are facing outwards. Insert your finger into the loop. Pull on the pointed end to tighten it to a comfortable fit around your finger.
- Make a note of the number at the slit: this is your ring size.

### Tips

- Measure your finger in the evening
- Do not measure your finger in extreme heat or cold.
- Keep in mind that your fingers are not the same size on your other hand.
- Make sure the ring can move comfortably along the entire length of your finger in your chosen size.
- Sizing availability is specific to each product, though some larger rings can be sized down.
- Ring size may also vary slightly depending on style or width of the ring.

Should you require any assistance our customer support associates will be happy to advise you via telephone on +44 20 7499 2200 or email [contact@davidmorris.com](mailto:contact@davidmorris.com).

*The David Morris ruler is intended for indicative use. Under no circumstances should the measurement be construed as your exact ring size.*

## Ring Sizing Guide

### Method 2. Measure By Matching Existing Ring

- Use this method if you have a ring that perfectly fits the finger on which you would like to wear your David Morris ring. Find the circle that is the best fit for the inside of your ring: the inside of the band should align with the outer edge of the circle.
- If your ring is between two sizes, we recommend you opt for the larger size.

### How to Use The David Morris Ring Size Chart

The inner edge of the ring is NOT ALIGNED with the outer edge of the circle

CHOOSE  
A SMALLER SIZE

The inner edge of the ring is NOT ALIGNED with the outer edge of the circle

CHOOSE  
A LARGER SIZE

The inner edge of the ring is aligned with the outer edge of the circle

THIS IS  
THE RIGHT SIZE
